

Personal Portfolio Design

Time: 5 Days (01 Nov - 05 Nov)

Marks: 80

The following requirements must be included to the project.

Header: In this section a logo and a navbar should be present. Each link of manu will be linked to the specific section. For example if the menu is clicked, the page will scroll to about section. Make the header responsive properly, menu will be hidden for table and mobile device and instead of the menu a hamburger button will be shown up. You can add more things to make it attractive.

Banner:

- The section must be divided into 2 columns. And they will be in the same row on the desktop. For mobile and table the columns will take full width and the section will have two rows for each column separately.
- The first column will contain your name, professional title, and a short description and “See more” button, if the button is clicked the page will scroll to the about section.
- The second column will contain your image.
- You can use gradient background or background image to enhance the user experience.

About:

- At the beginning of this section will be a section title and description and a 100px * 2px line under the section description.
- Your profile image,name, professional title, description, birthday, age, website link, education, phone, email ,address etc. should be present in this section.

Services:

- At the beginning of this section will be a section title and description and a 100px * 2px line under the section description.
- There will be 6 cards to list your services. Each card will have icon, service title and description. Add some hover effects on the cards

Portfolio: Explore some personal portfolio templates from themeforest and make a unique portfolio section by our own.

Blog: Explore some personal portfolio templates from themeforest and make a unique Blog section by our own.

Contact:

- In this section, Address, social links(facebook, instagram, linkedin, twitter), email and phone number must be available.
- A contact form should be there including “name”, “Email”, “Subject” and “Message” filed.

Footer: A copyright information need to be added in this section.

All section must be completed with responsiveness for mobile, tablet and desktop devices to make it user-friendly.
